Oxidation-Effect Decorative Coating

Decorative multicolor metallic coating with oxidation effect

Decorative multicolor metallic coating inspired by natural oxidation. Creates a Corten-effect surface with infinite color nuances and subtle shades, combining warm tones with light-dark contrasts.

COMPOSITION

Metallic pigments, acrylic copolymer emulsion, oxidation-effect additives, special non-toxic additives.

TECHNICAL DATA

SPECIFIC WEIGHT

1.020 ± 5% kg/L

VISCOSITY

Thixotropic

COVERAGE

6–8 m²/L

RECOMMENDED COATS

Multiple coats (varies by effect)

TOUCH DRY

4–6 hours at 20°C

FULL CURE

48–72 hours at 20°C

APPLICATION TEMP

5°C – 30°C

DILUTION

Ready to use

RECOMMENDED PRIMER

Quartz Primer

PACKAGING

2.5L

SHELF LIFE

24 months

HS CODE

32149000
